17, 2004

Dear Sirs

.My letter to the Sacramento Bee was published
October 15, Part of the input follows.

Knowing what George Bush has accomplished in his
term of office I am perplexed to understand why
anyone would want four more years of a George
Bush presidency. The polls tell me that quite a few
people favor a repeat of this administration. I
don't understand it. Perhaps it is due to a genetic
proclivity to self destruct. More likely it reflects a
failure of our education system. We as a people
lack objectivity, logical thinking and knowledge of
current events. Media manipulation may also have
an impact.

Media manipulation has a big impact . How do you
suppose Hitler got in power

If the Sinclair Broadcast Group is allowed to proceed
as planned, Democracy is doomed.
